Announcement

MSc GE Examination regulations - version 20202

Subject: Deadlines Winter Term 2024/25 (20242) Exam Organization

Dear students of the **Master's program 'Geodetic Engineering'**,

General Deadlines (exam registration and deregistration)

For the examinations

1st term (regular)

General mandatory modules

- Coordinate Systems (753900109)
- Global Navigation Satellite Systems (753900209)
- Statistics and Adjustment Theory (753900309)
- Computational Foundations of GIS (753900409)
- Geodetic Earth Observation (753900509)
- Profile Fundamentals (753900609)

Profile-related mandatory modules (major/minor profiles)

- Sensors and State Estimation (753910109)
- Satellite Geodesy and Earth System (753920109)
- Urban Development (753930109)

2nd term (repetitive)

Profile-related mandatory modules (major profiles)

- Advanced Techniques for Mobile Sensing and Robotics (753910209)
- Advanced Data Analysis (753920209)
- Spatial Decision Support Systems (753930209)

Fakultät

Rheinische Friedrich-Wilhelms-Universität Bonn

Dipl.-Ing. Bernd Binnenbruck Office of

Profile-related mandatory project-modules (major profiles)

- Project Mobile Sensing and Robotics Part II (PE1) (753910402)
- Project Mobile Sensing and Robotics Part II (PE2) (753910403)
- Project Geodetic Earth System Science and Data Analysis Part II (PE1) (753920402)
- Project Geodetic Earth System Science and Data Analysis Part II (PE2) (753920403)
- Project Geoinformation and Spatial Development Part II (PE1) (753930402)
- Project Geoinformation and Spatial Development Part II (PE2) (753930403)

3rd term (regular)

Compulsory elective modules (major/minor profiles)

Mobile Sensing and Robotics

- Application and Evaluation of Kinematic Mobile-Sensor-Systems (753915029)
- Techniques for Self-Driving Cars (753916029)
- Point Cloud Processing (753917029)
- Geodetic Earth System Science and Data Analysis
- Seminar on Space Observing Systems (PE2) (753923043)
- Monitoring Water and Cryospheric Change from Space (Ice Sheet Signals) (PE1) (753925022)
- Monitoring Water and Cryospheric Change from Space (Monitoring Water from Space) (PE2) (753925023)
- Advanced Methods in Satellite Geodesy (753927029)

Geoinformation and Spatial Development

- Advanced Algorithms for Geo Information Systems (753936019)
- Urban Analytics with GIS (753937029)

in the Master's Program "Geodetic Engineering" the following deadlines are set

- Begin of exam registration: 02.12.2024
- End of exam registration: 13.01.2025

Registrations must be done via *basis*.

An **exam withdrawal** without stating any reason should always be done via **basis** at the latest one week before the (respective first) examination date.

Bonn, December 02, 2024

Fax: 0228/73-2988

The regulations for the issue of a **Master's Thesis** are announced separately.

If further examinations (e.g. 2nd term (repetitive), compulsory elective modules)

For the examinations of external modules (compulsory elective selection), please

refer to the special announcements of the offering study program and submit the

have to be taken, please inform the examination office immediately.

Further Announcements (individual regulations)

General Notice

on the website.

After completing a registration or deregistration, please check the steps taken in your overview "Info on exams".

The printed overview serves as the basis for your proof in the event of a dispute.

If you have any questions, please contact the exam office "Geodetic Engineering" (email contact by pruefungengeodaesie@uni.bonn.de).

With kind regards,
